

# Vadita Lathar

latharvadita5@gmail.com | (209) 610-9460 | [linkedin.com/in/latharvadita](https://www.linkedin.com/in/latharvadita)

## EDUCATION

**Miami University** | Oxford Ohio

**Expected Graduation: May 2028**

**Major:** Bachelor of Science in Software Engineering | **Minor:** Deep Learning & Artificial Intelligence

**GPA:** 3.56 | **Dean's List** (Spring 2025) | **Outstanding International Student** (Spring 2025)

**Relevant Coursework:** Object-Oriented Programming, Data Abstraction and Data Structures, Systems Programming, Web Applications Programming, Introduction to Software Engineering

## SKILLS

**Skills:** Java, Python, C++, SQL, HTML, CSS | Git, GitHub, Eclipse, VS Code, Figma

## WORK EXPERIENCE

**Student Specialist - Operations Team**

**August 2025 – Present**

- Coordinate technical setup for 4–5 campus events weekly, including AV systems and troubleshooting.
- Manage equipment inventory and communicate with staff to ensure smooth event operations.

**International Peer and Orientation Leader**

**August 2025 – August 2025**

- Guided 100+ international students through academic and cultural transition, serving as a key resource for campus life, policies, and support services.
- Facilitated orientation discussions and activities while addressing student concerns and adapting to challenges in a fast-paced, cross-cultural environment.

**Teaching Assistant for Fundamentals of Problem Solving & Programming**

**January 2025 – May 2025**

- Assisted in teaching an introductory Python programming course supporting 50+ students.
- Helped students debug code and understand programming and problem-solving concepts.
- Graded assignments and provided feedback on code structure and logic.

## PROJECTS

**TaskMaster – Task Management Application (UI/UX Design)**

**Present**

- Designing the user interface for a task management application that helps users organize tasks, manage deadlines, and track progress.
- Creating personas, user scenarios, and wireframes in Figma to develop an intuitive and user-centered interface.

**Escape Room Game | Java, GitHub, VS Code**

**December 2025**

- Built an escape room game with five rooms and puzzle-based progression.
- Applied object-oriented programming with multiple classes and inheritance for game structure.
- Collaborated using GitHub and designed system architecture with UML diagrams.

**Book Portal (First Position) - Computer Science Youth of America**

**October 2023**

- Designed and prototyped a digital platform to connect rural students in need of textbooks with individuals willing to donate.
- Built and tested the prototype to demonstrate feasibility and gather user feedback for future development.

## LEADERSHIPS / INVOLVEMENT

**ACM-W - Association of Computing Machinery - Women**

**August 2024 - Present**

- Support women in tech through workshops, networking, and mentorship opportunities.

**GWC - Girls Who Code**

**August 2024 - Present**

- Participate in coding workshops, collaborative projects, and mentorship programs.
